ABOUT ME

Hi, my name is Tunji Akande, and I am a highly skilled MERN (MongoDB, Express.js, React.js, Node.js) developer, known for my exceptional skills, strengths, and work style. With a deep understanding of the MERN stack, I possess the ability to build robust and scalable web applications.

My expertise lies in crafting intuitive and visually appealing user interfaces using React.js, while seamlessly integrating them with powerful backend solutions using Express.js and Node.js. With a strong command over MongoDB, I ensure efficient data management and smooth database operations. My comprehensive knowledge of these technologies enables me to handle frontend and backend tasks with ease, delivering seamless user experiences.

What sets me apart is my meticulous attention to detail. I take pride in writing clean, maintainable code that adheres to industry best practices. By utilizing my problem-solving skills and staying up-to-date with the latest trends and techniques in web development, I consistently deliver high-quality solutions.

Furthermore, I thrive in collaborative environments, actively engaging with team members to drive success. I am an effective communicator, capable of articulating technical concepts to non-technical stakeholders. By fostering a positive and cooperative work atmosphere, I ensure smooth project execution and successful outcomes.

My passion for learning and continuous improvement keeps me motivated to explore new technologies and expand my skill set. I am always eager to take on challenges, adapt quickly to changing requirements, and deliver results within deadlines.

In summary, as a MERN developer, my skills, strengths, and work style reflect my dedication to delivering exceptional web solutions. With a keen eye for detail, collaborative mindset, and continuous drive for improvement, I am committed to exceeding expectations and contributing to the success of any web development project.

WORK EXPERIENCE

Abaris

New Delhi , India

2021-12-01 Web Developer working here

Working as a MERN (MongoDB, Express, React, Node.js) developer at Abaris Softech has been an enriching and fulfilling experience. As a full stack web developer, I am responsible for handling various aspects of the development process, ranging from front-end design to back-end implementation. This full-time role allows me to showcase my skills and expertise while contributing to the success of the company.

At Abaris Softech, I have the opportunity to work on diverse projects, collaborating with talented individuals from different backgrounds. The team spirit and collaborative work environment foster creativity and innovation, enabling us to deliver high-quality solutions to our clients. I take pride in being part of a company that values excellence and emphasizes the use of cutting-edge technologies.

As a MERN developer, I am involved in designing user interfaces, implementing responsive layouts, and developing server-side logic. I leverage the power of the MERN stack to create robust and scalable web applications that meet the needs of our clients. The versatility of this technology stack allows me to work on a wide range of projects across different industries, broadening my knowledge and skill set.

Working full-time as a MERN developer at Abaris Softech requires me to stay updated with the latest trends and advancements in web development. I am constantly learning and improving my skills to deliver optimal solutions and meet the evolving demands of the industry. Abaris Softech provides an environment that encourages growth and professional development, supporting me in enhancing my expertise and staying ahead in the ever-changing tech landscape.

Overall, my experience as a full-time MERN developer at Abaris Softech has been rewarding. The challenging projects, collaborative work culture, and the opportunity to work with cutting-edge technologies have contributed to my growth as a developer. I am proud to be part of a team that strives for excellence and is dedicated to delivering innovative web solutions to clients worldwide.
